

Computer Cabinet

With the growing use of computers in harsh industrial environments we have created a steel cabinet to protect a standard office PC with a 17" screen.

The cabinet eliminates the need to use expensive industrial computers, saving money and down time.

It can be used in industrial environments to protect the standard computer from knocks, dust, water, oil etc.

Technical Data:

Cabinet: Manufactured in steel plate with lockable door. Built-in fan as standard with filtered ventilation.
Reflex free acrylic glass on the door. Space for a 17" screen, Extendable shelf for mouse mat 250mm.

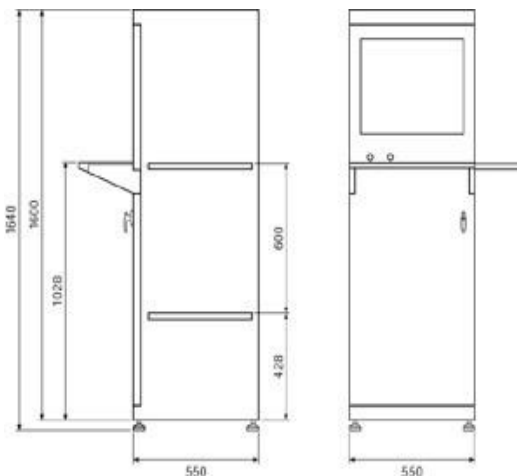

Measures: 1600mm x 550mm x 550mm

Colour: Powder coated dark grey.

Material: 1.5mm thick sheet metal

Electrical: Connection cable 2m long with access for 4 grounded sockets

Part Number: 960 10 00
